[8 beats instrumental]

The snow glows white on the mountain tonight  
Not a footprint to be seen  
A kingdom of isolation  
And it looks like I'm the queen

The wind is howling like this swirling storm inside  
Couldn't keep it in, heaven knows I've tried

Don't let them in, don't let them see  
Be the good girl you always have to be  
Conceal, don't feel, don't let them know  
Well, now they know

Let it go, let it go  
Can't hold it back anymore  
Let it go, let it go  
Turn away and slam the door  
I don't care what they're going to say  
Let the storm rage on  
The cold never bothered me anyway

[4 beats instrumental]

It's funny how some distance  
makes everything seem small  
And the fears that once controlled me  
can't get to me at all  
It's time to see what I can do  
To test the limits and break through  
No right, no wrong, no rules for me  
I'm free

Let it go, let it go  
I am one with the wind and sky  
Let it go, let it go  
You'll never see me cry  
Here I stand and here I stay  
Let the storm rage on

[9 beats instrumental]

My power flurries through the air into the ground  
My soul is spiraling in frozen fractals all around  
And one thought crystallizes like an icy blast  
I'm never going back, the past is in the past

Let it go, let it go  
And I'll rise like the break of dawn  
Let it go, let it go  
That perfect girl is gone

Here I stand in the light of day  
Let the storm rage on  
The cold never bothered me anyway

[Les Houches Song]

[8 beats instrumental]

The beams run bright in the tunnel tonight  
No dark matter to be seen  
Photons in isolation  
So was SUSY just a dream?

The theory's breaking with the swirling logs inside  
Couldn't make it fit, heaven knows I tried

Don't let them in, don't let them see  
How I treat all those uncertainties  
Ad-hoc, don't stop, don't let them know  
Well, now they know

I don't know, I don't know  
Can't tune it out any more  
I don't know, I don't know  
Make the plot and slam the door!  
I don't care what they're going to say...  
Let the cluster run!  
Theorists never bothered me anyway.

[4 beats instrumental]

It's funny how some data  
Makes every scale seem wrong  
And the tunes that once did serve me  
Don't match anything at all  
It's time to see what I can do  
To test the limits and break through  
More loops, more legs, more CPU!  
Mon dieu!

I don't know, I don't know.  
NGLs are everywhere  
I don't know, I don't know.  
Just derive with great fanfare  
Integrate! And I shall wait  
While the cluster runs!

[9 beats instrumental]

In VBF the scale uncertainties explode!  
Will BDTs help me distinguish between modes?  
Electroweak corrections grow so very fast!  
I'm never going back, LO is in the past!

Let it go, let it go  
I will code 'til the break of dawn  
Let it go, let it go  
'Til the perfect plot is done!

Here I see what the data say!  
Let the cluster run!  
Never needed new physics anyway!
